Changing Young Lives Foundation, located at Shek Kip Mei of Sham Shui Po, serves underprivileged children and young people in Hong Kong and the Mainland and seeks to change their lives for the better. We support and inspire them to work towards a better life through educational and developmental programmes and help them acquire the knowledge and skills they need to realize their full potential and lead happy and productive lives.

Our Programmes:

Art to Heart is an expressive art programme outreaching to young people in secondary schools of Hong Kong to enhance their psychological wellness, through exploring their inner self and expressing their thoughts and feelings with different art modalities including drawing, music, drama and dance.

Brain Box provides assessment and training for children having learning difficulties to enhance their learning capability.

Kiddies Land aims at supporting the cognitive development of young children, aged 1 – 5, through different elements of learning and encouraging parent-child bonding.

Pay It Forward provides year-round developmental activities, helping the children and young people to identify and develop their interests and talents, enhancing personal growth and development.

Slam Dunk Challenge has been offering basketball training, since 1998, to young people aged 13 – 18, to build up self-confidence & discipline as well as mutual help and awareness via social services.

Smart Mom empowers the underprivileged mothers with skills to nourish their children, explore their own potentials and enhancing parent-child relationship, as well as mutual support amongst the mothers.

Mainland Projects improve the quality of lives for the children at remote areas in Qinghai, Guangxi and Gansu, by providing school maintenance, teacher training, hygiene and healthcare programmes, as well as Wishing Well.

We are most grateful to the support of Swire Properties, the Hong Kong Touch Association and all the teams participating in Touch Tournament, contributing to raise funds to change the lives of the underprivileged children for the better.
